Subject:	RE: Possibly Speaking in US for Shalva Oct 2015

Realize that this is a most difficult time in Israel and that you have more pressing things on your mind and agenda but plans need to be made so I would appreciate a response to our request that you speak in the US for Shalva as requested below. It would be wonderful for the organization if you could do so but we understand that issues now make a decision questionable. We are hopefully that all will be resolved in a manner that allows for peace and comfort in Israel in the future

Your response please

Be well all

Heard from Izzy Rosewnzweig, my friend and longtime business partner, that he spoke with you on his latest flight to Israel and it was kind of you to send us your best wishes thru him.

Helaine and I hope that you are well and enjoying a happy and healthy life.

We visit Israel each Spring in conjunction with a great program that we are pursuing in conjunction with the Maccabi Haifa football Club. We are their partners in an integrated (kids of all religions play together on our teams) youth soccer program with young people ie from 8 to 18. We are now in three cities ie Haifa, Nahalal and Yeruham, were we recently started a small program. We see Michal when we visit each Spring and it is great to see her so happy

Our hearts and minds are with our brothers and sister in Israel in these terrible times BUT I feel that there is no choice as no one can live with its people threatened all the time and hopefully this will not only clear out or at least substantially reduce the weapons in Gaza but also, if we are fortunate, bring about a government who cares about the wellbeing of its own people

I write you today at the request of the leadership of " Shalva" a wonderful institution in Israel dealing with children with severe disabilities and their request to me to see if you would speak at one or more of the below fund raising events. Personally I would love it if you could speak at the Long Island event on Oct 30 2015 as we attend each year

Would you please check your schedule to see whether this would be possible and advise me

Thanks for looking into this and please stay well
